KIXbox ... Ab ins App Center!

The screenshot displays the KIXbox App Center interface. At the top, there is a browser tab labeled 'App Center' and a navigation bar with 'Erweiterte Software-Verwaltung' and 'Repository-Einstellungen'. Below this, a section titled 'Anwendungen für UCS verwalten' (Manage applications for UCS) includes a brief instruction: 'Um dies zu tun, Ihrer UCS-Installation weitere Applikationen hinzuzufügen oder diese zu entfernen.' (To do this, add more applications to your UCS installation or remove them.)

The main area is titled 'Applikationen' (Applications) and features a grid of application tiles. Each tile contains an icon, the application name, and a brief description. The applications shown are:

- agorum core Pro DMS**: Represented by a stylized 'a' logo.
- Asterisk4UCS VoIP**: Represented by an orange speech bubble with 'UCS' inside.
- DRBD System**: Represented by the 'DRBD LINBIT' logo.
- KIXbox Administration**: Represented by a box icon, highlighted with a grey border.
- IT Service Management Suite mit KIX4OTRS**: Represented by a blue gear icon, with a tooltip pointing to it.
- Open-Xchange Server Edition Groupware, Mail**: Represented by the 'OX' logo.
- ownCloud Internet**: Represented by the 'ownCloud' logo.
- RDP Server (xrdp) Administration**: Represented by an 'X' logo with 'xrdp' text.
- SEP sesam Backup Administration**: Represented by a yellow circular logo with a blue 'S'.
- SugarCRM Community Edition CRM**: Represented by a red and black cube logo.

Beschreibung

KIXbox ist eine IT Service Management Komplettlösung zur Abbildung der IT Service Prozesse. Die Suite beinhaltet UCS, Nagios und KIX4OTRS. Die Lösung ist vorkonfiguriert und kann durch verschiedene Module erweitert werden (Inventarisierung, CTI, Wissensdatenbank,...). Hiermit installieren Sie die Komponente KIX4UCS als Basis des integrierten IT-Service-Management-Systems KIXbox. Die wichtigsten Serviceprozesse sind unterstützt: Incident Management, Problem Management, Service Level Management, Configuration Management / CMDB, Event Management, Workflow Management, Operation Management. Administrator-Login: root@localhost, Passwort: root
